

The Wisdom for Conquering Hypertension

On behalf of the Japanese Society of Hypertension (JSH), I would like to cordially invite you to join the ISH 2022 KYOTO Japan which is held at Kyoto International Conference Center from Oct 12 to 16, 2022.

It is our sincere hope that doctors and researchers who devoted to hypertension studies and research will gather in Kyoto and have active, intensive and lively discussions for the further development of the field.

By gathering the wisdom of hypertension cultivated around the world in Kyoto, a city with over a thousand years the capital of Japan, we aspire to explore a new direction and generate a new legend in our shared mission to control hypertension.

With best regards,

Hiroshi Itoh, MD PhD

Chair, ISH 2022 Kyoto
President,
The Japanese Society of Hypertension
