

October 14, 15:00- 15:40 Featured Presentation

Health Maintenance and Teamwork in Space

Naoko Yamazaki, Space Port Japan Association, JAPAN

Based on the experience onboard the International Space Station (ISS) and Space Shuttle Discovery, the way we train on the ground and we live in space will be introduced, emphasizing the teamwork. Also, health maintenance system onboard the ISS will be introduced. Since the number of private astronauts has been increasing, health maintenance in space to accommodate wider range of people is becoming more important.
